3. ORDER OF THE PURCHASE

- A. When the Purchasing Process is conducted as a tender with a Preliminary Selection/Sorting Stage the process shall be conducted in the following manner:
- (i) In stage 1 (the " Preliminary Selection/Sorting stage"), Offerors are required to submit their technical and commercial proposals, excluding prices, along with all the documents, records, annexures, questionnaires and other things, required in the specification, or elsewhere in the Purchasing Process documents.
The term "Offeror" shall mean all entities, submitting their proposals under the Purchasing Process. Where required, the documents must be filled in and/or signed.
 - (ii) IEC will examine the technical/commercial proposal and may request clarifications from Offerors in respect of any item contained therein, including possible modifications thereto and, in doing so, reserves the right to issue amendments to the tender/inquiry documents. Such amendments may contain requirements more or less stringent than those originally requested. In case amendments are effected, Offerors will be required to update and submit their revised technical/ commercial proposals (without prices) to IEC. Such proposals shall comply with the revised tender/inquiry documents, without exceptions, as far as possible, so that they may be better evaluated on a common basis. As part of IEC's examination, IEC shall first examine the compliance of the Technical-commercial proposal with the Threshold Conditions and the material provisions of the Tender. Failure to comply with the Threshold Conditions and the material provisions shall result in the disqualification of the proposal. Where prices have been included in any stage 1 proposal, IEC shall disregard such prices
 - (iii) IEC shall have a right to disqualify a proposal, at its discretion, on technical and/or

commercial grounds. An Offeror, whose proposal is disqualified in the course of stage 1, will not be permitted to partake in stage 2.

- (iv) In stage 2, Offerors, whose technical/commercial proposals have been approved by IEC during stage 1, will be invited to submit their price proposals, subject to such terms and conditions as will be set forth in the invitation to submit prices.
In stage 2, Offerors shall only submit their prices. Offerors shall not be permitted to submit any technical or commercial information (other than where specifically requested to provide further technical clarification) and shall not include any further technical, commercial or legal exceptions. In the event such exceptions are submitted, IEC shall be entitled to disqualify the proposal.

- (v) Please note that Offerors participating in the Purchasing Process may request a different delivery date to that specified by IEC.

IEC shall have a right to amend or complement any term, requirement or condition, including quantities, delivery schedule and payment terms set forth in the tender/inquiry documents, at any time prior to the deadline for submission of price proposals.

The final delivery date shall be subject to IEC's discretion all in accordance with IEC's needs.

- (vi) IEC hereby clarifies that the delivery schedule dates stated in the tender/inquiry documents are minimum dates. IEC shall be entitled to amend the delivery schedule by adding additional dates all in accordance with operational considerations and inventory management.

- (vii) The invitation of an Offeror to participate in stage 2 shall not deprive IEC of the right to disqualify such Offeror's proposal in the course of stage 2, if IEC discovers, that the proposal should have been disqualified for technical, or other reasons, during stage 1.

- B. When the purchase is conducted in a single stage, Offerors are required to submit their technical and commercial proposals , along with their price proposal and all the documents, records, annexures, questionnaires and other things, which are required in the specification or elsewhere in the tender/inquiry documents, duly filled in and/or signed (as required).
- C. When the purchase is conducted as a Tender with a Two Stage Examination Stage, the process will be administered in two stages as follows:
 - 1. Offerors are requested to submit their proposals in two separate envelopes/files simultaneously (with attached sample for each type proposed), as follows:

Technical-commercial – shall contain all the approvals and documents required to evidence the compliance of the Offeror with the bid requirements (including documents attesting to compliance with threshold conditions, material/compulsory conditions and all other documents included in the technical and commercial proposal as detailed in Annexures "D" and "Z").

NOTE: Price proposals are not to be submitted in this envelope.

Technical commercial file- shall include all approvals and documents required to prove compliance of the Offeror with the Tender requirements.

It is hereby emphasized: no price proposals must be included in this file.

Price Proposal file – shall contain the details of the Offeror and the table of Prices (Annexure "C"), a request to receive preference for Israeli manufactured goods (where relevant) and the documents for industrial cooperation (in the event and where relevant) and declarations regarding adherence to the laws

of competition and no coordination of proposals. NO technical or commercial details or information must be inserted in this file (except for the prices). Offerors must indicate in the file name the words: **"PRICE PROPOSAL"**

2. The Price Proposal files of Offerors whose proposals are acceptable to IEC (as they are in compliance with the Threshold Conditions and material provisions in the Technical commercial envelope/file – as stated above) will be opened by IEC.

D. ADDITIONAL COMPETITIVE PROCEDURE IN ACCORDANCE WITH MANDATORY TENDER REGULATION NUMBER 17E

1. If IEC decides that the tender shall contain an additional competitive stage, it will be explicitly stated in the title of the tender procedure, or, should IEC decide that the tender shall not contain an evolving computerized on-line tender as stated in Article 3E below, an additional competitive stage will be held as follows:

IEC will notify the three Offerors whose proposals comply with all the conditions of the tender and are most beneficial to IEC, that they are entitled to submit, at a date to be determined by IEC, a final price proposal which will include conditions more beneficial to IEC than those contained in the original proposal; provided that the lowest qualified price proposal submitted for the tender will not be lower than IEC's own estimate by more than 15%, and IEC has come to realize that no mistake was made in the estimate.

Despite the abovementioned, it is hereby clarified that where a tender contains sections (not within chapters/lots), in the event the lowest qualified price proposal/s for at least 75% of the sections in the tender are not lower than the self estimate, set for the tender for those sections, at a rate exceeding 15%, an additional competitive procedure shall take place with the abovementioned Offerors for all of the Tender items.

Furthermore, it shall be clarified that where the tender contains a chapter or chapters and the Offeror is required to submit a price proposal to all of the sections under the chapter/s, a proposal will be considered more beneficial to IEC where the Offeror has improved its price proposal in the aggregate to the chapter/s, in comparison to its initial proposal.

For the avoidance of doubt, in the event that out of all proposals submitted only three were approved, or less than three proposals were initially submitted, an additional competitive proceeding will be held, with all Offerors whose proposals will be deemed compatible.

- i. In the event an Offeror does not submit an additional price proposal or a proposal containing conditions more beneficial to IEC, then its original proposal will be considered the final proposal.

It is hereby clarified that regardless whether the Offeror elected to submit a proposal in the additional competitive procedure or not, the validity of the proposals shall be for a period of 180 days commencing on the last date for submitting proposals in the additional competitive proceeding.

- ii. Where an Offeror is requested, as part of the tender, to submit his proposal in percentages (a discount or an increase from a maximum or minimum price determined in the tender, or from Manufacturer's pricelist, as the case may be), the proposal submitted to the additional competitive procedure shall be more beneficial than the original proposal submitted.

It shall be clarified that where the tender contains a chapter or chapters and the Offeror is required to submit a price proposal to all of the sections under the chapter/s (a percentage per section), a proposal will be considered more beneficial to IEC where the Offeror has

improved the entire scope of its proposal to the chapter/s, in comparison to its initial proposal.

Example A: In the event that the Offeror's initial proposal was a discount of 5% of the maximum prices determined in the tender, the Offeror must submit at the additional competitive procedure, a discount higher than 5% and this proposal shall replace the initial proposal.

Example B: In the event that the Offeror's initial proposal was an increase of 5% of the minimum prices determined in the tender, the Offeror must submit an increase lower than 5% and this proposal shall replace the initial proposal.

In the event the Offeror's proposal in the additional competitive procedure fails to comply with the requirements set-forth above, the Offeror's initial proposal shall be considered as the final proposal for the tender.

iii. Where an Offeror has attached an accountant's approval for preference for local Israeli manufactured goods to the original proposal submission and there is an additional competitive procedure, a new accountant's approval must be attached to the final proposal, should it still be relevant.

iv. It is hereby clarified that the existence of an additional competitive proceeding does not derogate from IEC's authority to examine the reasonableness of the proposals, inter alia, with respect to the estimate.

E. EVOLVING COMPUTERIZED ON-LINE TENDER IN ACCORDANCE WITH MANDATORY TENDER REGULATION NUMBER 19D

Where IEC has issued an Evolving Computerized On-line tender for submission of prices, IEC reserves the right (without any obligation on its part), to change the method of the procedure prior to the prescribed date for submission of prices, and shall notify the participants that they are required to submit their proposals to the Tender Box without conducting an Evolving Computerized On-line tender, in the following cases:

1. One or more participants in the tender has submitted a request for preference according to the Mandatory Tender Regulations (Preference for Local Israeli Manufactured Goods), 1995.
2. Only one proposal in the tender was submitted or has been prequalified for discussion.

IEC will also be entitled, in special cases that will be noted, to change the aforesaid method of procedure. In the event IEC decides to change the method of the aforesaid procedure and the conditions exist for this, an additional competitive procedure will be conducted.
